Subject: [WARNING: A/V UNSCANNABLE]Portland Harbor Administrative Record - Shore Terminals document
Attachments: 2012-302-2 Shore Terminals maintenance post dredge sample 10-2014.pdf

Sean, attached is a document that should become part of the administrative record for the PH site. Maintenance dredging occurred at the Shore Terminals P2 Dock (RM 5.1) during the 2014 work window. CERCLA coordination was completed for this project in 2013. The subject document contains analytical data for post dredge grab samples collected in August 2014. A sand cover was placed after the post-dredge samples were collected.

Lance
